- 8.3. Entity purchase orders shall be submitted to Vendor by the Entity. City will not be liable or responsible for any obligations, including, but not limited to, payment, and for any item ordered by an entity other than City.

The City makes no representation or guarantee as to any minimum amount being purchased by City or Entities, or whether Entity will purchase utilizing City's contract.

9. ADDENDA

When specifications are revised, the CITY of PASADENA Purchasing Department will issue an addendum addressing the nature of the change. Bidders must sign and include it in the returned bid package.

10. SILENCE OF SPECIFICATIONS

The apparent silence of specifications as to any detail, or the apparent omission from it of a detailed description concerning any point, shall be regarded as meaning that only the best commercial practice is to prevail and that only material and workmanship of the finest quality are to be used. All interpretations of specifications shall be made on the basis of this statement. The items furnished under this contract shall be new, unused of the latest product in production to commercial trade and shall be of the highest quality as to materials used and workmanship. 11. NAME BRANDS

Specifications may reference name brands and model numbers. It is not the intent of the CITY of PASADENA to restrict these bids in such cases, but to establish a desired quality level of merchandise or to meet a pre-established standard due to like existing items. Bidders may offer items of equal stature and the burden of proof of such stature rests with bidders. The CITY of PASADENA shall act as sole judge in determining equality and acceptability of products offered.

12. RECYCLED MATERIALS

CITY of PASADENA encourages the use of products made of recycled materials and shall give preference in purchasing to products made of recycled materials if the products meet applicable specifications as to quantity and quality. CITY of PASADENA will be the sole judge in determining product preference application.

13. INSPECTIONS & TESTING

City of Pasadena reserves the right to inspect any item(s) or service location for compliance with specifications and requirements and needs of the using department. If a bidder cannot furnish a sample of a bid item, where applicable, for review, or fails to satisfactorily show an ability to perform, the CITY can reject the bid as inadequate.

14. PRICING

Prices for all goods and/or services shall be firm for the duration of this contract and shall be stated on the Bid Pricing form. Prices shall be all inclusive: No price changes, additions, or subsequent qualifications will be honored during the course of the contract. All prices must be written in ink or typewritten. Pricing on all transportation, freight, drayage and other charges are to be prepaid by the contractor and included in the bid prices. If there are any additional charges of any kind, other than those mentioned above, specified or unspecified, bidder MUST indicate the items required and attendant costs or forfeit the right to payment for such items. Where unit pricing and extended pricing differ, unit pricing prevails.

15. BID FORM COMPLETION

Unless otherwise specified, Bidders must use the bid forms supplied by the Purchasing Office. Fill out and return to the City Secretary's Office. An authorized representative of the bidder should sign the Bid Sheet. The contract will be binding only when signed by the CITY of PASADENA, funds are certified by the CITY Controller, as applicable, and a Purchase Order issued.

16. SCANNED OR RE-TYPED RESPONSE

If in its bid response, bidder either electronically scans, re-types, or in some way reproduces the City's published bid package, then in event of any conflict between the terms and provisions of the City's published bid specifications, or any portion thereof, and the terms and provisions of the bid response made by bidder, the City's bid specifications *as published* shall control. 18. SUPPLEMENTAL MATERIALS

Bidders are responsible for including all pertinent product data in the returned bid package. Literature, brochures, data sheets, specification information, completed forms requested as part of the bid package and any other facts which may affect the evaluation and subsequent contract award should be included. Materials such as legal documents and contractual agreements, which the bidder wishes to include as a condition of the bid, must also be in the returned bid package. Failure to include all necessary and proper supplemental materials may be cause to reject the entire bid.

19. VARIANCES

For purposes of bid evaluation, Bidders must indicate any variances, no matter how slight, contained in the bid. No variations or exceptions by a bidder will be considered or deemed a part of the bid submitted unless such variances or exceptions are listed in the bid and referenced in the space provided on the bid pages. If variances are not stated, or referenced as required, it will be assumed that the product or service complies with the City's terms, conditions and specifications.

By receiving a bid, the City does not necessarily accept any variances contained in the bid. All variances submitted are subject to review and approval by the City. If any bid contains material variances that, in the City's sole opinion, make that bid conditional in nature, the City reserves the right to reject the bid or part of the bid that is declared, by the City as conditional.

20. DISQUALIFICATION OF BIDDER

Upon signing this bid document, a bidder offering to sell supplies, materials, services, or equipment to the CITY of PASADENA certifies that the bidder has not violated the antitrust laws of this state codified in Texas Business and Commerce Code §15.01, et seq., as amended, or the federal antitrust laws, and has not communicated directly or indirectly the bid made to any competitor or any other person engaged in such line of business. Any or all bids may be rejected if the CITY believes that collusion exists among the bidders. Bids in which the prices are obviously unbalanced may be rejected. If multiple bids are submitted by a bidder and after the bids are opened, one of the bids is withdrawn, the result will be that all of the bids submitted by that bidder will be withdrawn; however, nothing herein prohibits a vendor from submitting multiple bids for different products or services.

21. AWARD OF CONTRACT

- 21.6. Although the information furnished to bidders specified the approximate quantities needed, based on the best available information where a contract is let on a unit price basis, payment shall be based on the actual quantities supplied. **CITY OF PASADENA
PURCHASING OFFICE**

is in addition to and not in lieu of any other remedies which the CITY of PASADENA may have in law or equity. EMERGENCY MAINTENANCE AND REPAIR:

1. GENERAL

Emergency maintenance and repair operations of traffic signal and street lighting systems, herein referred to as "Emergency Repairs", refers to the timely response associated with responding to reported traffic signal or lighting malfunctions and or providing emergency system repairs. **Upon receipt of notification of a request to provide Emergency Repair, the Contractor shall pursue identification of any potential problems and necessary repair operations with all haste to insure that the signal down time will be kept to an absolute minimum.** The Contractor shall, in all cases, initiate emergency maintenance operations for these calls as described below. Failure to respond within the designated time frames associated with the level of response assigned to a given call shall be cause for termination of this contract. It is the Contractor's responsibility to respond to requests for Emergency Repairs for the duration of the contract.

2. CLASSIFICATION OF EMERGENCY REPAIR CALLS

The Contractor will be required to respond immediately to all requests to provide Emergency Repair, in

**CITY OF PASADENA
PURCHASING OFFICE**

accordance to the level of response that is associated with each request.

All requests for Emergency Repair will be classified by the City of Pasadena according to the level of response that is required at the time a call is assigned to the Contractor. The four levels of response that shall be applicable to this contract include:

- 2.1 Level A – Required response time of 4 hours, MAXIMUM. Repairs to be completed at the time of initial response.
- 2.2 Level B – Required response time of 12 hours, MAXIMUM. Repairs to be completed at the time of initial response.
- 2.3 Level C – Required response time of 48 hours, MAXIMUM, if required by City of Pasadena. Repairs to be completed at the time of call if possible or within five (5) days, MAXIMUM.
- 2.4 Level D – Required response time of 48 hours, MAXIMUM, if required by City of Pasadena. Repairs to be completed within two (2) weeks, MAXIMUM.

In the event that a call is assigned to the Contractor without a specific level of response assigned, the Contractor shall treat the call as a Level A emergency maintenance call. The classification of the calls shall be provided by the City of Pasadena at the time each respective call is assigned. The level of response classification associated with a given request for emergency maintenance may be revised at any time, at the discretion of the City of Pasadena, in order to assure timely response and the safety of the public.

3. REQUESTS FROM CITY OF PASADENA

A request will be considered valid when:

- 3.1 The request for Emergency Maintenance is relative to a traffic signal identified as being under construction and/or under modification via an active City of Pasadena construction project and the City of Pasadena cannot contact the contractor responsible for providing emergency maintenance for this location.
- 3.2 The City of Pasadena has been instructed to initially attempt to contact the construction contractor associated with intersections that are under design and modification with any complaints. In the event the appropriate construction contractor cannot be contacted, the Contractor will be contacted to respond to the request. These types of requests shall be treated as Level A requests to provide Emergency Maintenance.

4. PERFORMANCE REQUIREMENTS FOR ROUTINE AND EMERGENCY MAINTENANCE OPERATIONS

Only **I.M.S.A. Certified Level II Traffic Signal Technicians in mobile ladder trucks or I.M.S.A. Certified Level II Traffic Signal Electricians** in mobile ladder trucks shall be on-call to respond to requests for emergency maintenance and repair operations. It is the City's desire that only Level II Traffic Signal Technicians respond to requests for emergency maintenance and response calls. However, if the Contractor elects to use a Level II Traffic Signal Electrician and the Level II Traffic Signal Electrician is unable to correctly diagnose the problem and effect repairs, the Contractor shall immediately dispatch a Level II Traffic Signal Technician to the location for the purpose of diagnosing the problem and effecting repairs at no additional cost to City of Pasadena.

It is City's intent that all repairs necessary to place a signal or flasher system back into normal operation be made during the initial visit to the site, unless shop repairs to the controller equipment are required. Compensation for multiple trips will be made ONLY in the event that the repair involves intermittent and/or complex repairs that, in the opinion of the Traffic Department, could not have been identified during the initial site visit. **However, City of Pasadena will pay for no more than three trips that are associated with the same request to provide Emergency Maintenance. No compensation shall be made for any subsequent trips if, in the opinion of City of Pasadena, these trips were necessitated due to lack of inventory and/or qualified personnel on the part of the Contractor.**

No payment shall be made for time other than travel time to the job-site, time spent at the job-site, and travel time to return to the shop. Travel time should not exceed a total of 1 hour to the job-site, and 1 hour to return to the shop. .

**CITY OF PASADENA
PURCHASING OFFICE**

Any malfunctioning equipment, materials or parts shall be repaired or replaced under emergency maintenance at rates submitted by the Contractor on the bid sheet.

Records and performance of all emergency maintenance operations will be strictly enforced and checked.

City of Pasadena reserves the right to require the Maintenance Contractor to carry any additional equipment, parts, and/or materials necessary to perform maintenance operations in the field to prevent delay and keep the travel time to a minimum.

5. PAYMENT FOR EMERGENCY MAINTENANCE OPERATIONS

All labor and equipment required by the Contractor to complete a request for emergency maintenance and repairs at each respective location will be considered for payment portion of this contract only if Contractor provides these services in accordance with these specifications.

6. EMERGENCY REPLACEMENT PARTS, MATERIALS, AND EQUIPMENT SUPPLIED BY THE CITY OF PASADENA

The City of Pasadena may furnish the Contractor some emergency replacement parts and equipment. The Contractor will sign documentation of the transfer of parts/equipment and will agree to return said parts and equipment to the City in **good or better working condition**. The City reserves the right to demand location of emergency repair equipment within five working days.

7. REMOVAL OF EXISTING PARTS, MATERIALS AND EQUIPMENT

All existing parts, equipment and materials removed from a signal system shall be returned to the City of Pasadena or disposed of. Disposal is solely at the discretion of the City of Pasadena Traffic Supervisor. Parts, materials, and equipment deemed valuable by the City may be purchased by the Contractor, providing the Contractor denotes the "trade in" value of such parts materials, and equipment on invoices submitted to the City.
