Burn Awareness Week

Gasoline has only one use – to fuel an engine.
Any other use is misuse.

Hey Parents!

Gasoline is a necessary part of our everyday lives. Without it, we'd be unable to get to and from work; our store shelves would be empty; our lawn mowers would be idle.

While gasoline is important, it also can be very dangerous. Its fumes can quickly ignite, causing serious injury or death.

Burn prevention has been a key endeavor of Shriners Hospitals for Children, which is why Shriners Hospitals began Burn Awareness Week many years ago. This year, the campaign focuses on preventing gasoline-related burn injuries and the

theme is "Gasoline has only one use – to fuel an engine. Any other use is misuse."

Burn Awareness Week, which is the first full week of February every year, is recognized by the National Health Information Center, Office of Disease Prevention and Health Promotion, and the U.S. Department of Health and Human Services.

For more information about gasoline safety and available educational materials, visit www.burnawarenessweek.org.

I'M ANTHONY THE FIRE ANT,
FIRE CHIEF OF ANTVILLE, USA.
JOIN ME IN MY MISSION
TO PREVENT BURN INJURIES.

GASOLINE IS ONLY USED TO FUEL AN ENGINE, LIKE THE ONE IN MY FIRE TRUCK.

ANTHONY'S ANT BYTES
KIDS, USING GASOLINE IN ANY OTHER WAY IS DANGEROUS.

LEAVING GASOLINE CONTAINERS OUT IN THE OPEN PUTS KIDS IN DANGER.

ANTHONY'S ANT BYTES

IF YOU SEE A GASOLINE CONTAINER, DON'T TOUCH IT! TELL AN ADULT TO MAKE SURE IT IS PUT AWAY IN A SAFE PLACE.

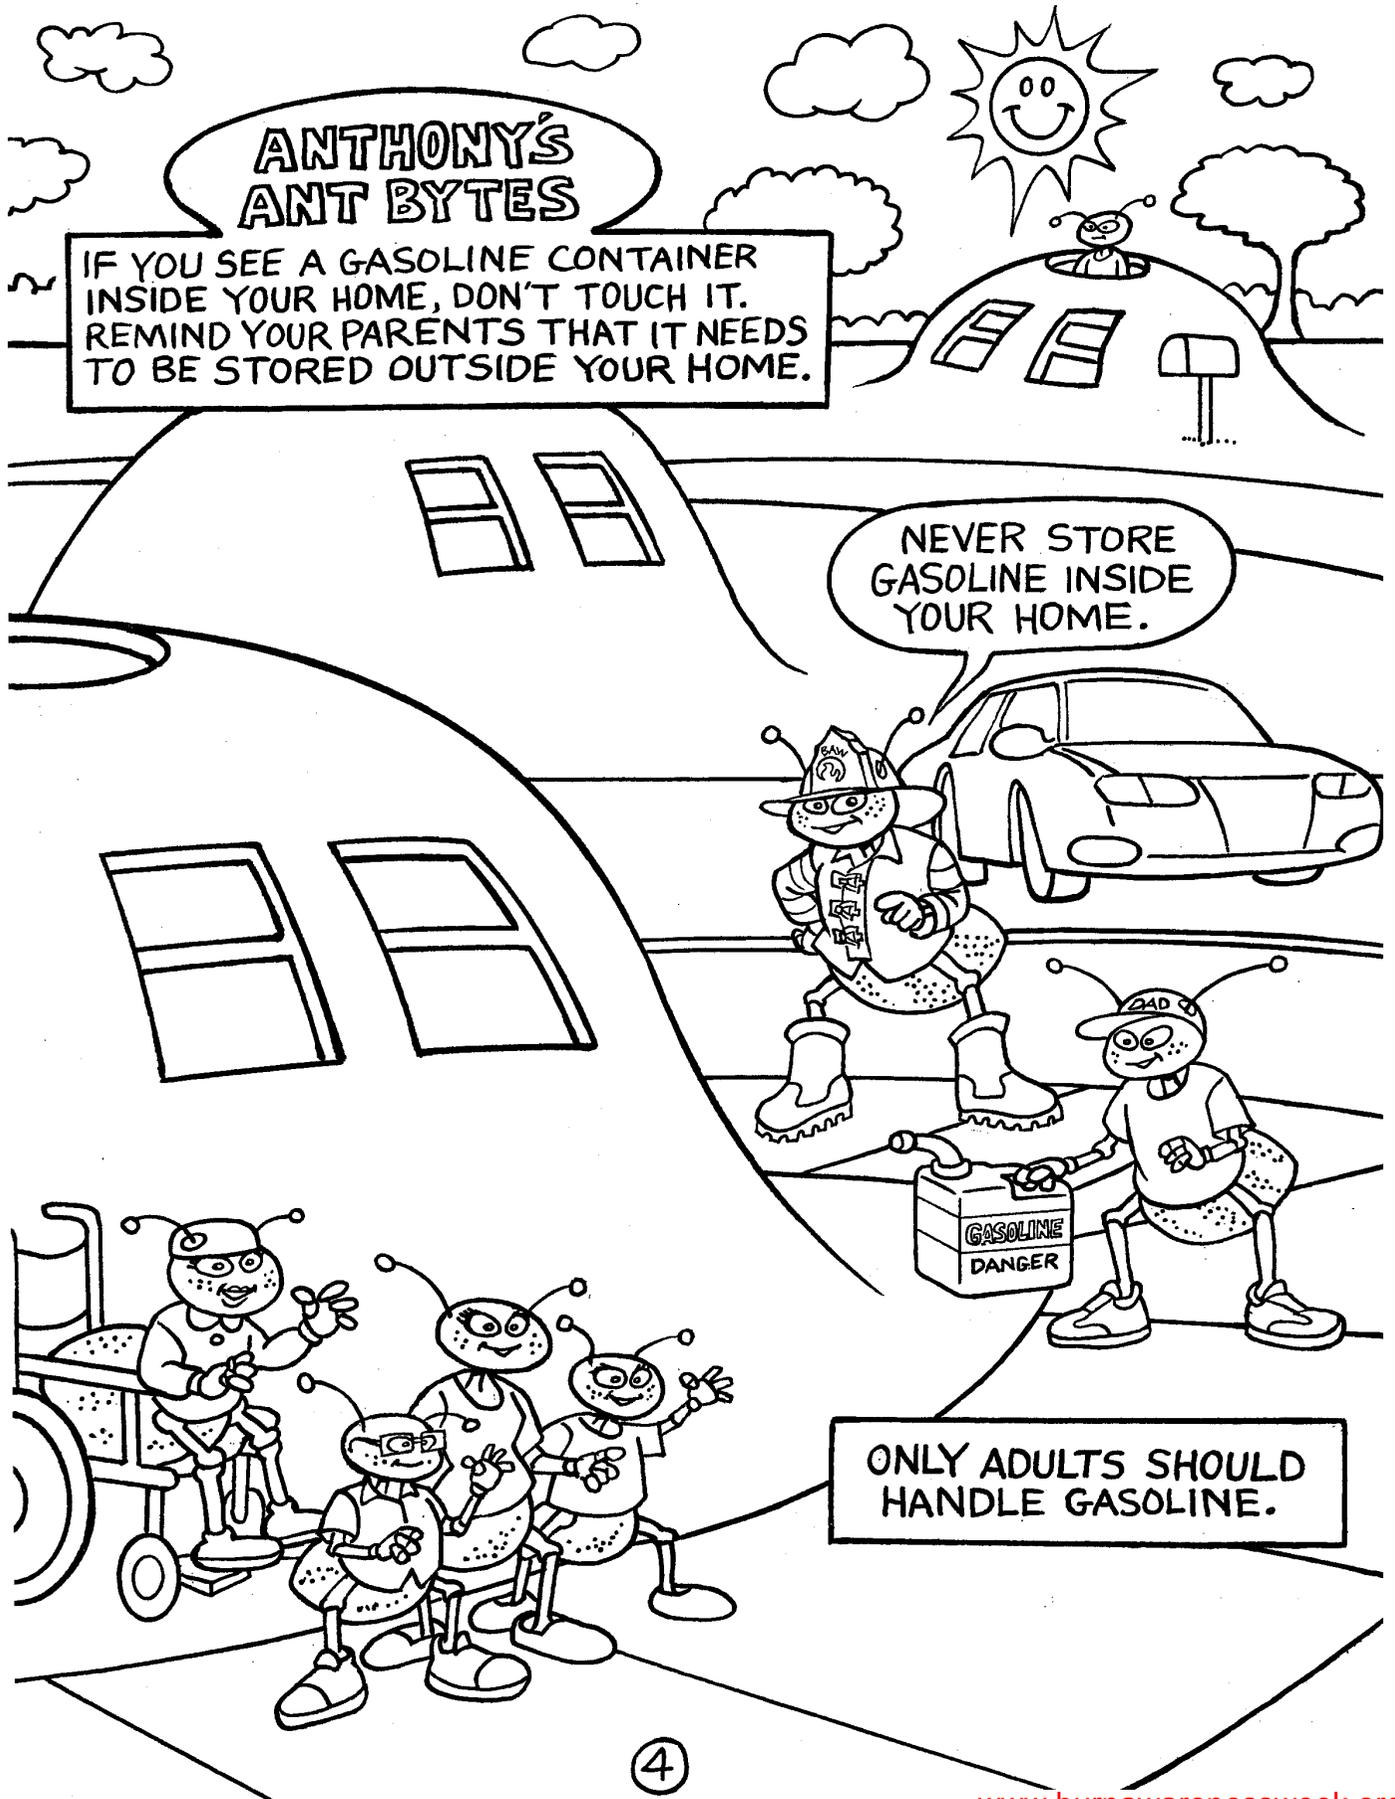

ANTHONY'S ANT BYTES

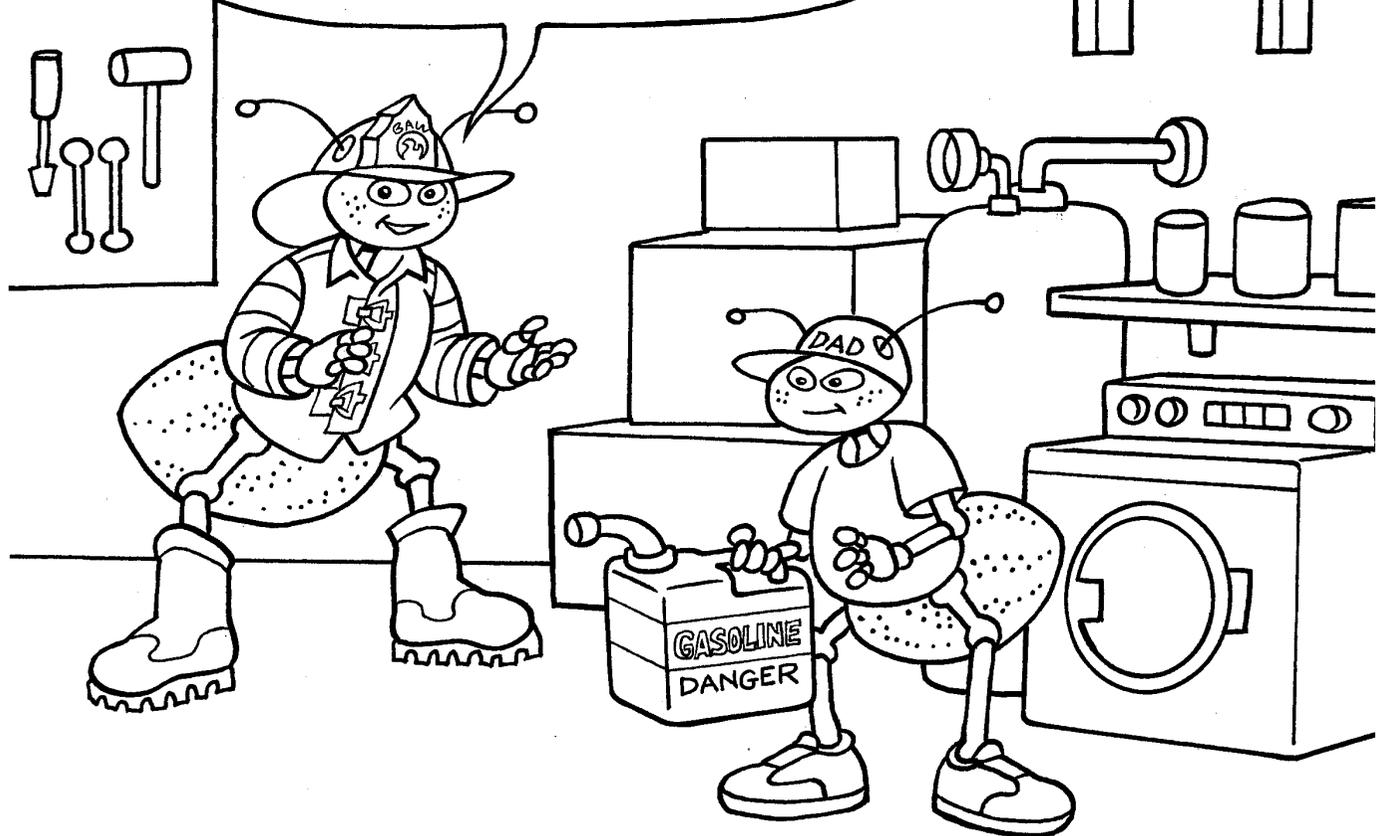

IF YOU SEE A GASOLINE CONTAINER
INSIDE YOUR HOME, DON'T TOUCH IT.
REMAND YOUR PARENTS THAT IT NEEDS
TO BE STORED OUTSIDE YOUR HOME.

NEVER STORE
GASOLINE INSIDE
YOUR HOME.

ONLY ADULTS SHOULD
HANDLE GASOLINE.

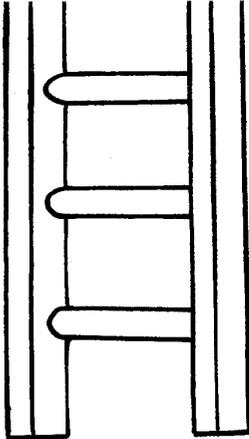

GASOLINE SHOULD NEVER BE NEAR APPLIANCES, LIKE A HOT WATER HEATER OR CLOTHES DRYER. APPLIANCES MAY IGNITE GASOLINE VAPORS AND START A FIRE.

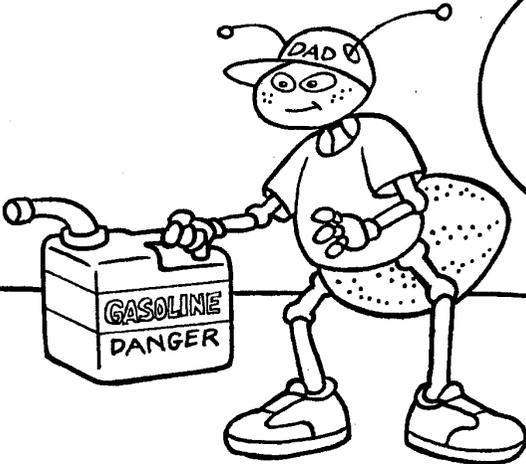

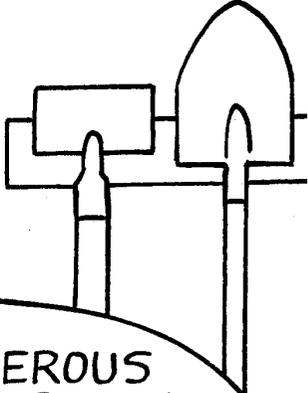

ANTHONY'S ANT BYTES

IF YOU SEE GASOLINE BEING STORED NEAR AN APPLIANCE, REMIND YOUR PARENTS THAT THIS CAN BE DANGEROUS.

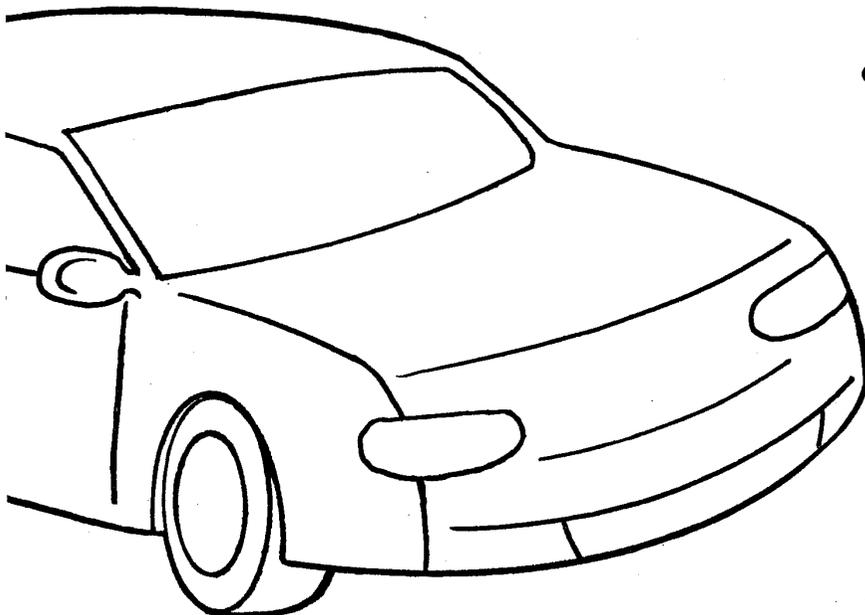

ANTHONY'S ANT BYTES

IF YOU SMELL GASOLINE
VAPORS, YOU SHOULD
QUICKLY LEAVE THE AREA
AND TELL AN ADULT.

GASOLINE IS DANGEROUS
BECAUSE THE VAPORS CAN
CATCH FIRE EASILY. YOU CAN'T
SEE GASOLINE VAPORS BECAUSE
THEY ARE INVISIBLE, BUT
YOU CAN SMELL THEM.

SHED

THE SHED IS A GOOD PLACE TO STORE GASOLINE.

GASOLINE
DANGER

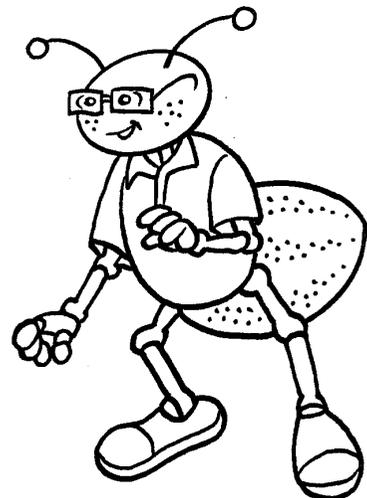

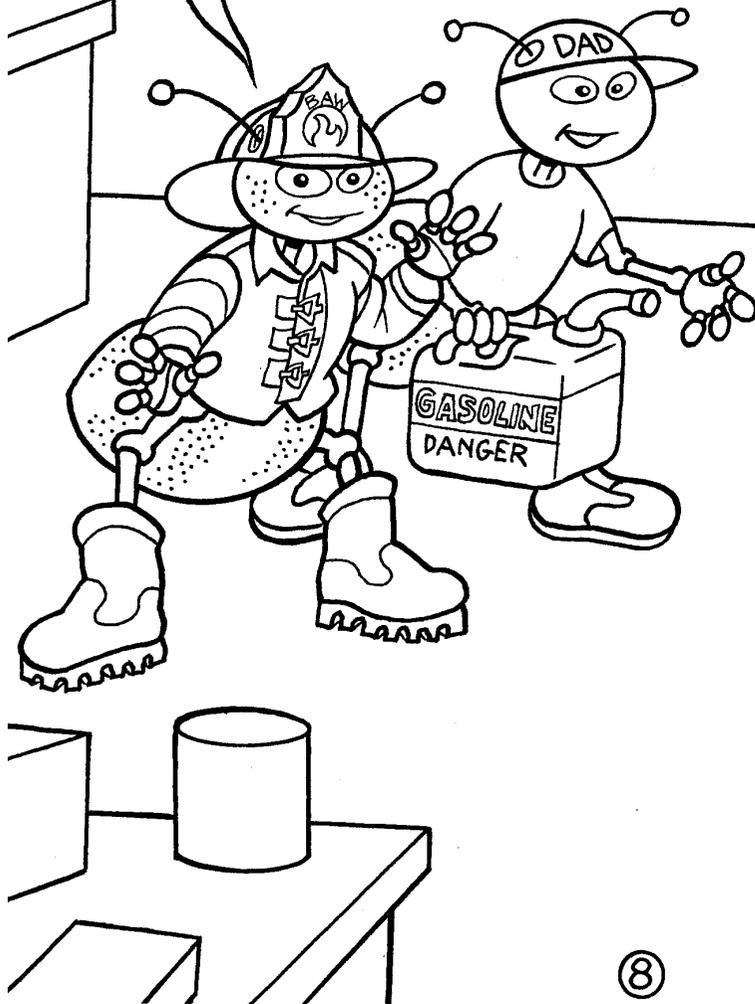

ANTHONY'S
ANT BYTES

IF YOU SEE A RED GASOLINE CONTAINER, STAY A SAFE DISTANCE FROM IT. NEVER GO NEAR IT, TOUCH IT, OR ATTEMPT TO OPEN IT.

ANTHONY'S ANT BYTES

ONLY ADULTS
SHOULD TOUCH OR
HANDLE GASOLINE.

SAFELY STORE
GASOLINE IN A LOCKED
CABINET, OUT OF THE
REACH OF CHILDREN.

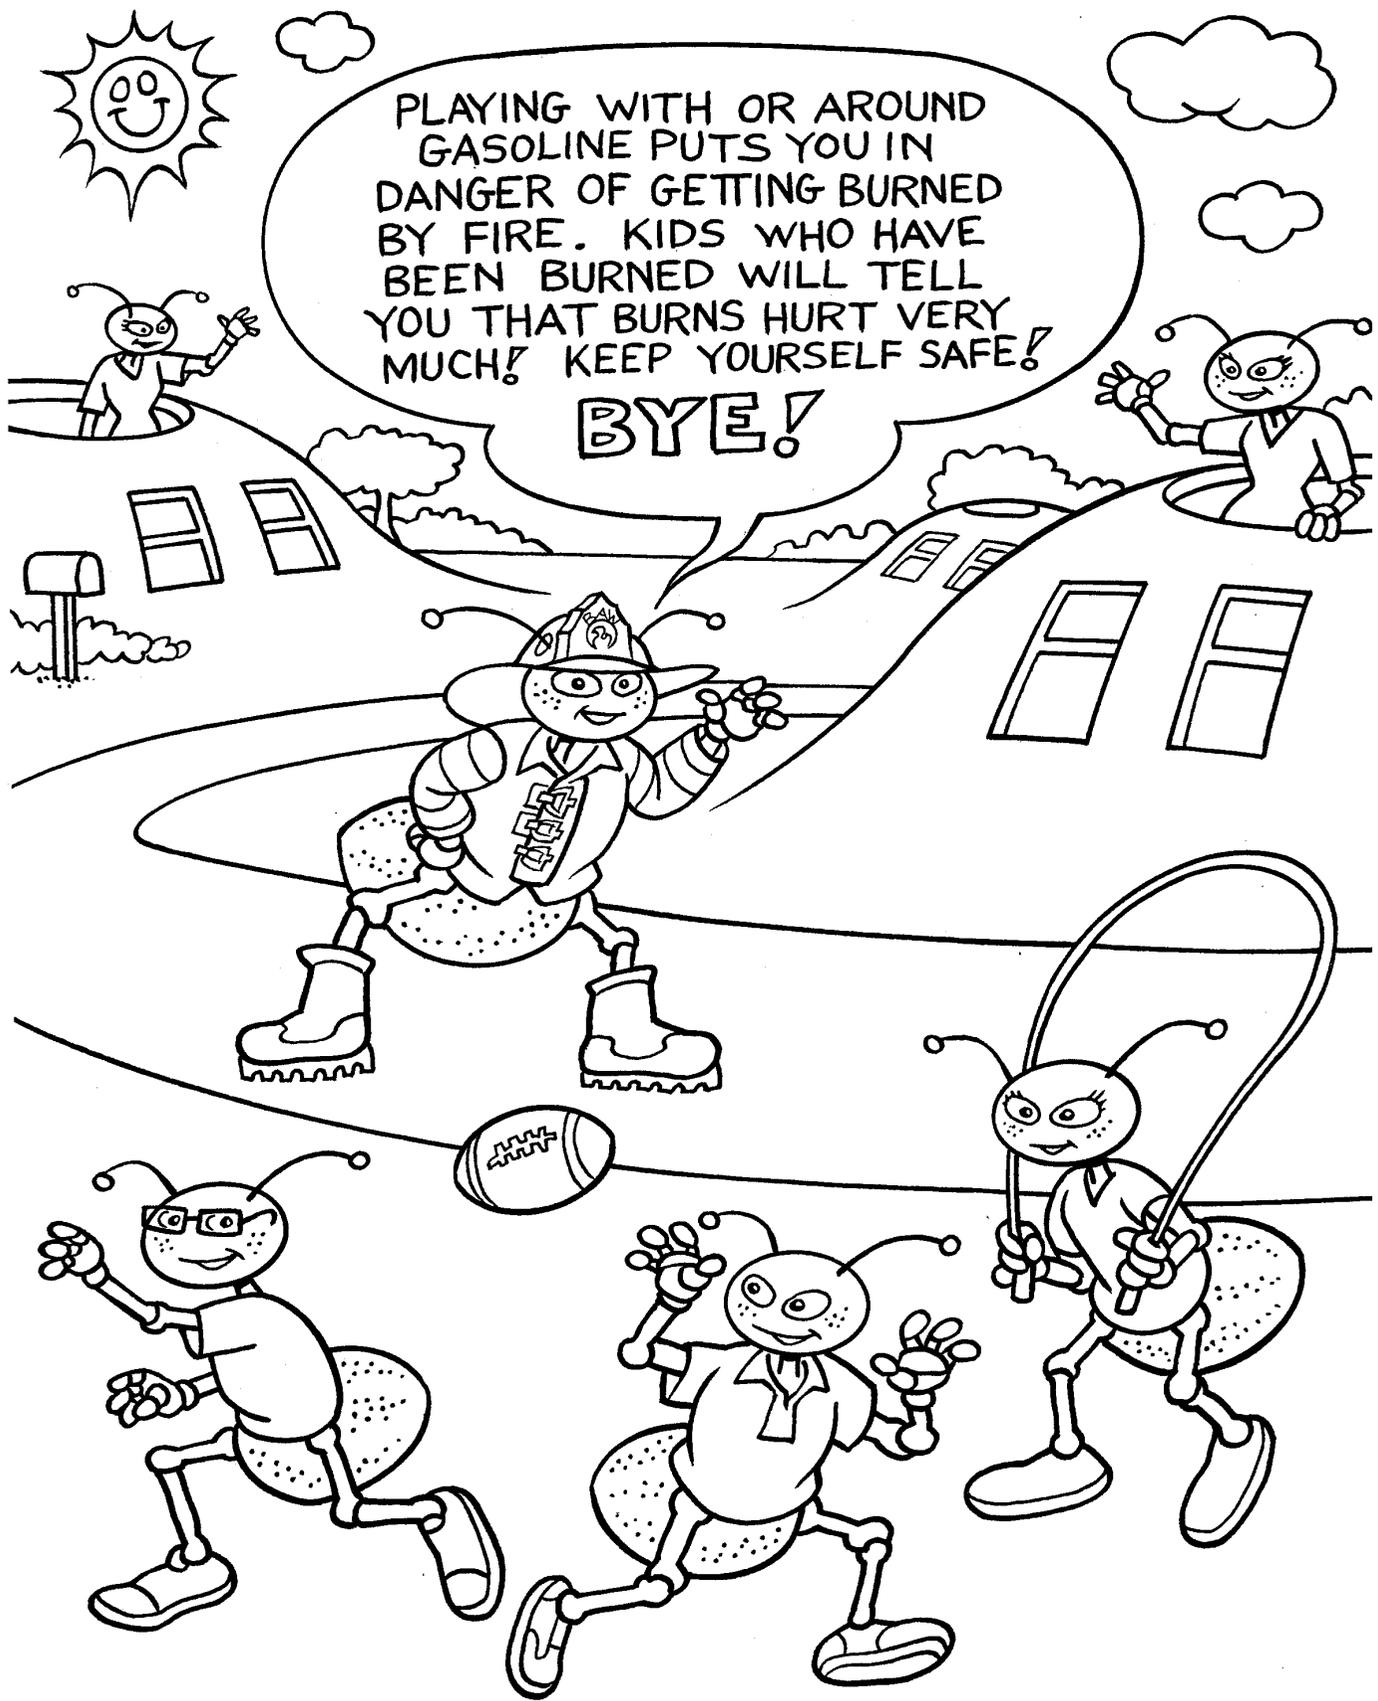

THESE TYPES OF CONTAINERS ARE NOT SAFE TO STORE GASOLINE IN.

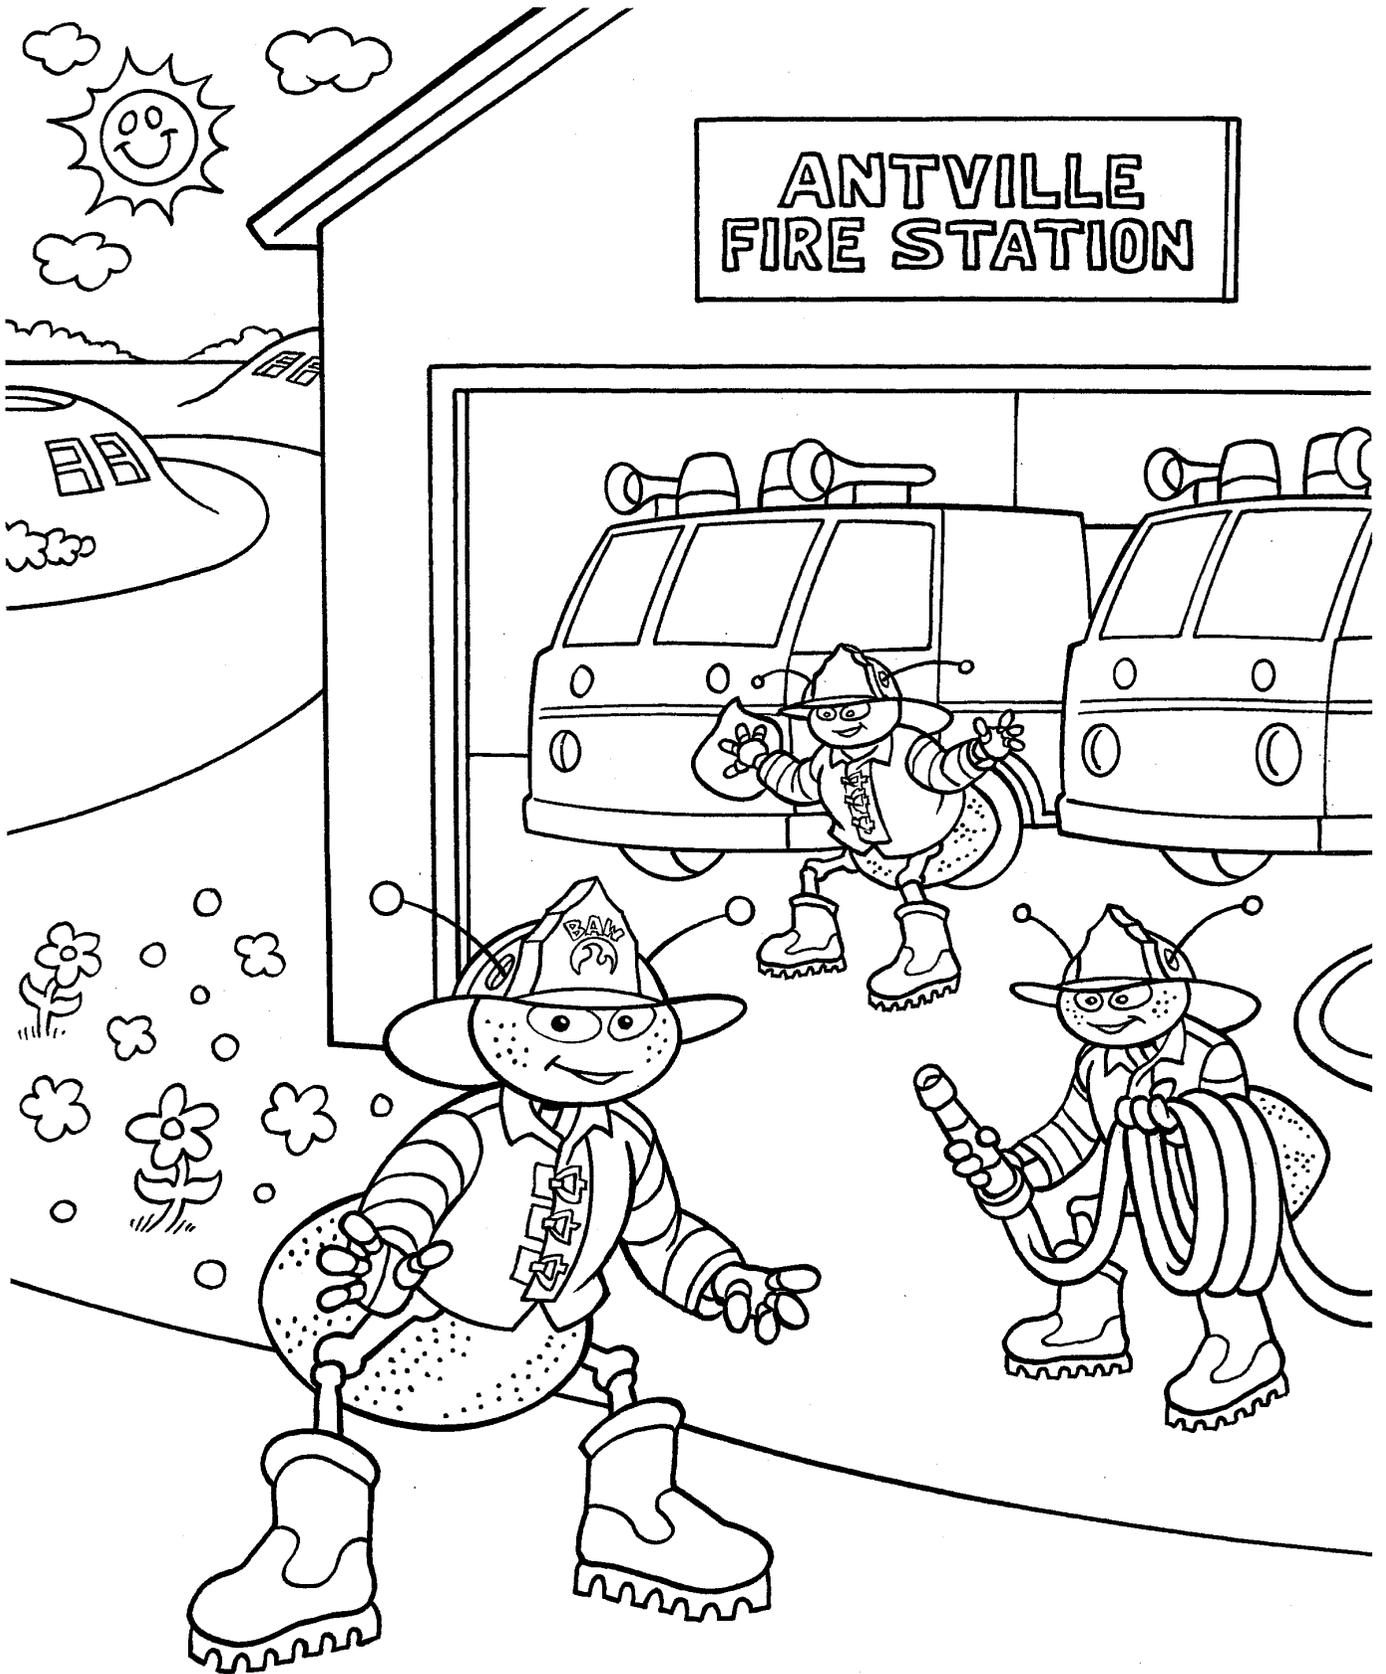

ANTHONY'S ANT BYTES

IF YOU SEE GASOLINE BEING STORED IN SOMETHING OTHER THAN AN APPROVED GASOLINE CONTAINER, DON'T TOUCH IT. REMIND YOUR PARENTS THAT THIS IS DANGEROUS AND THAT GASOLINE SHOULD BE STORED PROPERLY.

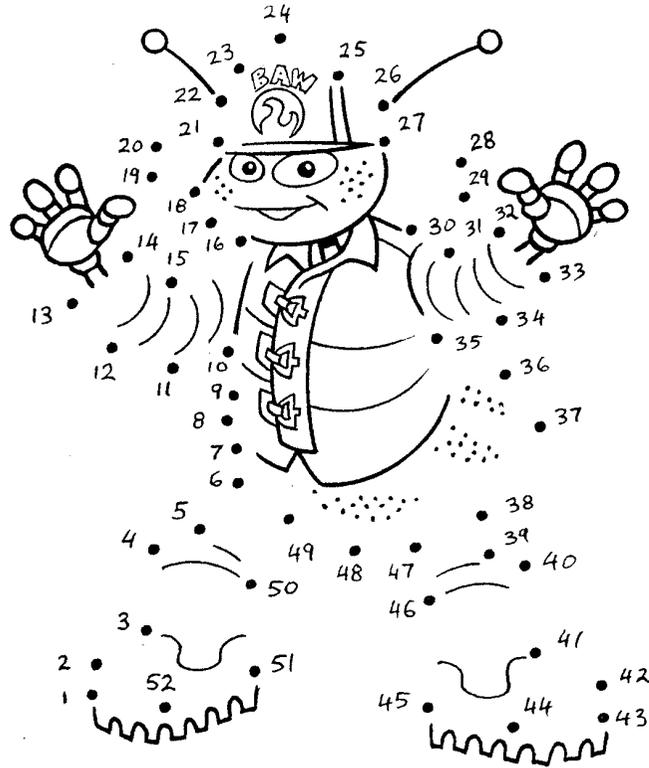

PLAYING WITH OR AROUND
GASOLINE PUTS YOU IN
DANGER OF GETTING BURNED
BY FIRE. KIDS WHO HAVE
BEEN BURNED WILL TELL
YOU THAT BURNS HURT VERY
MUCH! KEEP YOURSELF SAFE!
BYE!

Preventing Gasoline Burns

Important Information for Parents

Gasoline Use:

DO use gasoline only to fuel an engine. That is its only use!

DO remember that gasoline vapors can be ignited by a spark, flame or other source of heat that is located many feet away.

DON'T use gasoline anywhere near a barbecue grill.

DON'T use gasoline to light a barbecue grill or to start or accelerate a fire.

DON'T use gasoline as a cleaning fluid or solvent.

Handling Gasoline:

DO handle gasoline in a responsible manner.

DO remember that an engine that is still warm can ignite gasoline vapors. Only add gasoline when an engine is completely cool.

DON'T allow children to touch gasoline or a gasoline container, even under supervision.

DON'T handle gasoline near a flame source, such as matches, lighters and pilot lights on stoves and water heaters.

DON'T use gasoline indoors.

DON'T siphon gasoline by mouth, as it is harmful or fatal if swallowed.

DON'T induce vomiting if gasoline is swallowed. Instead, seek immediate medical attention.

Storing Gasoline:

DO store gasoline only in an approved gasoline container.

DO store gasoline in a well-ventilated outside storage area that is not attached to your home, such as a shed or garage, preferably in a locked cabinet. Be sure there are not any ignition sources nearby.

DO place the gasoline container out of reach of children.

DO keep only the minimum amount of gasoline required (generally, no more than a gallon).

DON'T store gasoline in a glass jar, milk jug or any other non-approved container.

DON'T store gasoline anywhere inside a home or vehicle.

DON'T store gasoline near a source of heat or sparks, such as a hot water heater, furnace, clothes dryer or any appliance that uses a pilot light.

About Gasoline Containers:

DO check gasoline containers for compliance with the ASTM F852 standard, which establishes performance requirements for portable gasoline containers intended for reuse by consumers. This compliance is indicated in writing on either side or the underside of all approved plastic gasoline containers.

DON'T put anything other than gasoline in a gasoline container.

DON'T drink anything out of a gasoline container.

Shriners Hospitals for Children™

About Shriners Hospitals for Children

Shriners Hospitals for Children is a one-of-a-kind international health care system of 22 hospitals dedicated to improving the lives of children by providing specialty pediatric care, innovative research and outstanding teaching programs. Children up to age 18 with orthopaedic conditions, burns, spinal cord injuries, and cleft lip and palate are eligible for admission and receive all care in a family-centered environment at no charge – regardless of financial need.

Located in Galveston, Boston, Cincinnati and Sacramento, the Shriners Hospitals specializing in burns have been leaders in burn research and treatment since opening in the mid-1960s. Treatment, including physical rehabilitation and psychological support, is provided at these hospitals to children with burn injuries and related scarring. This vast experience and knowledge has had far-reaching effects on burn treatment techniques worldwide.
